Re: EMS Education Standards Rollout

The Division of EMS and Trauma (DEMST) is pleased to announce the new date for the final EMS Education Standards Rollout that was originally scheduled in June of this year. Due to the devastation that has occurred in Minot the final rollout session has been moved to **Bismarck on October 8, 2011**. This rollout session will be conducted through the MedCenter One education department and will be instructed by Sherm Syverson from FM Ambulance Education of Fargo. DEMST would like to thank both MedCenter One and FM Ambulance for their assistance in this important project.

The purpose of this rollout is to discuss the new EMS Education Standards that North Dakota will be implementing over the next few years. It is mandatory that all instructors attend one of these events. If you have already attended a rollout session this requirement has been fulfilled. However registration is open and if you have further questions or would like to expand your knowledge of the new standards, feel free to register for this final rollout session. This session can be used as an instructor/coordinator (I/C) refresher or a full continuing education coordinator (CEC) course. There is no charge for this class but pre-registration is requested.

FM Ambulance is also sponsoring a full I/C course, which you may also register for through the website listed below. Please pass this information along if you know of anyone that is considering becoming an I/C as there are very few I/C courses conducted in the state. Fees will apply for the full I/C course.

Instructions for registration:

1. Go to <http://fmambulance.mrooms.org/>
2. If you do not already have a login, create a user account by clicking on “create new account” located in the login area.
3. Follow the onscreen instructions.
4. Go back to <http://fmambulance.mrooms.org/> and click on “Public Courses” located on the front page.
5. Click on “Bismarck – ND EMS Roll-out 2011”
6. Log in with your newly created *user name* and *password*.

If you are having difficulty signing up or would like more information about the rollout or the full I/C course contact Sherm at (701) 364-1754 or by email at sherm@fmambulance.com.

Sincerely

Ed Gregoire, AAS, NREMT-P
